

EVIDENCE RECORD INSTRUCTIONS

I use this as a quick reference so I keep it at the front of my file.

Just write in the persons' name, then as you gather your evidence, for instance, if you find your ancestor on the 1891 Census just put a tick in the corresponding box.

For the Birth, Marriage and Death columns I just put the year of the event, but you can put the complete date in if you want to.

The additional evidence columns are used just for that! For instance I obtained a copy of an ancestors Last Will and Testament, so I just made a note of that in the additional evidence column.

Good luck with your research and I hope this has been of use to you.
